Volume V 1966

PHYTOPATHOLOGIA MEDITERRANEA

ORGANO DELL'UNIONE FITOPATOLOGICA MEDITERRANEA

DIRETTA DA

A. CICCARONE
Bari

G. GOIDÀNICH
Bologna

COMITATO DI REDAZIONE

JEAN BARTHELET, Antibes; ETTORE CASTELLANI, Torino; JOSÉ M. EL RIVERO, Burjasot, Valencia; STÉPHANE DÉMÉTRIADÈS, Votanikos, Athénai; ANTONIO L. BRANQUINHO D'OLIVERA, Oeiras, Lisboa; ABBAS F. EL-HELALY, Alexandria; MLADEN YOSSIFOVIC, Beograd; GUNGÖR KAREL, Göztepe, Istambul; LEE LING, F.A.O, Roma; GEORGES MALENÇON, Rabat; ISRAEL REICHERT, Tel Aviv.

EDIZIONI AGRICOLE BOLOGNA - ITALIA

Indice del Vol. V - Contents of Vol. V

C.D.U. - U.D.C.
632.488.43 *Piricularia oryzae*: 633.258 (62)

ABO-EL-DAHAB M. K. and S. H. MICHAIL - Studies on Rice blast disease in United Arab Republic (Egypt) with special reference to its control.
Studi sul « brusone » del Riso nella Repubblica Araba Unita (Egitto) con particolare riferimento alla lotta . . . . p. 109

631.8-2.488.45 *Fusarium oxysporum* f. sp. *gladioli*: 582.579.2

ASHOUR W. E. and I. F. GAMAL EL-DIN - Effect of fertilization on corm diseases of Gladiolus in the United Arab Republic.
Effetto della concimazione sulle malattie dei bulbi di Gladiolo nella Repubblica Araba Unita . . . . . » 115

582.281.258 *Polymyxa graminis*: 632.38 *Triticum*

CANOVA A. - Ricerche sulle malattie da virus delle Graminacee. III. *Polymyxa graminis* Led., vettore del virus del mosaico del Frumento.
Researches on the virus disease of grasses. III. *Polymyxa graminis* Led., vector of Wheat soil-borne mosaic virus . . » 53

632.488.32 *Marssonina brunnea*: 582.623.2 *Populus*: 551.58

CASTELLANI E. - Influence des facteurs climatiques sur les infections des Peupliers euramericains par *Marssonina brunnea* (Ell. et Ev.) P. Magn.
Influenza dei fattori climatici sulle infezioni di *Marssonina brunnea* (Ell. et Ev.) P. Magn. sui Pioppi euramericani . . » 41

632.4 : 634.75 (569.41)

CHORIN M. and D. NETZER - New records on Strawberries in Israel.
Nuove segnalazioni sulla Fragola in Israele . . . . . » 188

632.485.13 *Tilletia foetida*: 633.11

D'ARMINI M. e C. SEMPIO - Temperatura, umidità, inoculo in relazione all'attacco di *Tilletia foetida* (Wallr.) Liro su « Mentana » ed altre cultivars di Frumento.
Temperature, soil moisture and levels of inoculum in relation to the infections of *Tilletia foetida* (Wallr.) Liro on « Mentana » and other Wheat cultivars . . . . . » 80

632.35 *Pseudomonas mors-prunorum* (45)

ERCOLANI G. L. - Patotipo e lisotipo di isolati italiani di *Pseudomonas mors-prunorum* Wormald.
Pathotype and lysotype of Italian isolates of *Pseudomonas mors-prunorum* Wormald . . . . . » 1

632.35 *Pseudomonas*: 635.642

ERCOLANI G. L. - Una pseudomonade pectolitica agente di necrosi del fusto di piantine di Pomodoro.
A pectolytic pseudomonad as an agent of stem necrosis of young Tomato plants . . . . . » 126

632.35 *Aerobacter cloacae*: 635.11

ERCOLANI G. L. - Rilevanza fitopatologica di *Aerobacter cloacae*.
Phytopathological significance of *Aerobacter cloacae* . . » 127

632.488.43 - *Spilocaea oleagina* 634.63 (62)

FAHIM M. M. - The occurrence of Olive leaf disease incited by *Spilocaea oleagina* (Cast.) Hugh. in the United Arab Republic.
Presenza nella Repubblica Araba Unita dell'« occhio di pavone » dell'Olivo da *Spilocaea oleagina* (Cast.) Hugh. . . . » 184

577.15.025 : 632.448.43 *Spilocaea oleagina* -3.852.73

GRANITI A. e P. DE LEO - Osservazioni su *Spilocaea oleagina* (Cast.) Hugh. IV. Resistenza alla macerazione enzimatica come probabile reazione di difesa delle foglie di Olivo al parassita.
Observations on *Spilocaea oleagina* (Cast.) Hugh. IV. Resistance to macerating enzymes as a suggested defence mechanism of Olive leaf against the parasite . . . . . » 65

632.482.112 *Erysiphe graminis* f.sp. *tritici*: 581.15 (45)

GRASSO V. - Le razze fisiologiche di *Erysiphe graminis* D.C. f. sp. *tritici* Marchal in Italia (1964-1965).
The physiologic races of *Erysiphe graminis* D.C. f. sp. *tritici* Marchal in Italy (1964-1965) . . . . . » 36

632.482.112 *Erysiphe graminis* f.sp. *tritici*: 581.15 (45)

GRASSO V., I. SPACCAVENTO e D. SISTO - Le razze fisiologiche dell'*Erysiphe graminis* D.C. f. sp. *tritici* Marchal in Italia (1966). II Contributo.

The physiological races of *Erysiphe graminis* D.C. f. sp. *tritici* Marchal in Italy (1966). II Contribution . . . . . p. 175

632.38 : 634.317

MAJORANA G. - Infezioni naturali di « variegatura infettiva » sul Mandarino (*Citrus reticulata* Blanco). Nota preventiva.

Occurrence of natural infections of « Citrus infectious variegation » on Mandarin (*Citrus reticulata* Blanco) . . . . . » 185

632.38 *Citrus*

MAJORANA G. - Primi risultati della trasmissione dell'exocortite degli Agrumi a Cedro (*Citrus medica* L.) « Etrog » selezione « 60-13 ».

Preliminary results of the transmission of excortis to Citron (*Citrus medica* L.) « Etrog 60-13 » . . . . . » 61

632.935.11 : 632.38 *Prunus amygdalus*

MAJORANA G. e G. P. MARTELLI - Tentativi di termoterapia di mandorli affetti da « mosaico ». Nota preliminare.

Heat-treatment of mosaic-affected almonds. Preliminary report . . . . . » 103

632.38 : 634.8

MARTELLI G. P., A. GRANITI, F. LAMBERTI e A. QUACQUARELLI - Trasmissione per innesto della « malattia delle enazioni » della Vite

Graft-transmission of « enation disease » of Grapevine . . » 122

632.488.45 *Fusarium* 633-511 (62)

NAIM M. S. and A. S. SHAABAN - Morphological and physiological variations among four isolates of *Fusarium* responsible for vascular wilt of Egyptian Cotton.

Variazioni morfologiche e fisiologiche tra quattro isolati di *Fusarium* causanti avvizzimento vascolare del Cotone Egiziano . . . . . » 7

635.649-2.938.1 : 632.38 (569.41)

NITZANY F. E. - Tests of the « Yolo-Y » virus resistant Pepper under Israeli conditions.

Comportamento del Peperone « Yolo-Y » resistente ai virus nelle condizioni di Israele . . . . . » 125

Notizie - News 64, 189

Primo Congresso dell'Unione Fitopatologica Mediterranea. Riassunti delle Relazioni generali e delle Comunicazioni.

First Congress of the Mediterranean Phytopathological Union. Abstracts of General Reports and Contributed Papers . . » 129

581.13 [547.466]: 632.42.212 *Taphrina deformans* -4.25

RAGGI V. - Secondo contributo allo studio delle alterazioni metaboliche prodotte da *Taphrina deformans* (Berk.) Tul. in foglie di Pesco (cv. « Elberta ») con particolare riguardo agli amminoacidi liberi e proteici.

Second contribution to the study of metabolic changes induced by *Taphrina deformans* (Berk.) Tul. in Peach (cv. « Elberta ») leaves with particular reference to free and protein amino acids . . . . . » 16

633.852.73 : 632.488.43 - *Spilocaea oleagina*

RAGGI V. e M. D. D'ARMINI - Alcuni caratteri morfologici e fisiologici di cultivars di Olivo in relazione alla loro diversa resistenza a *Spilocaea oleagina* (Cast.) Hugh.

Some morphological and physiological characters of Olive cultivars in relation to their resistance to *Spilocaea oleagina* (Cast.) Hugh. . . . . » 167

Recensioni - Reviews . . . . . » 191

632.482.112 *Erysiphe communis* 633.63 (45)

RUGGERI D. - La forma ascofora dell'oidio della Barbabietola in Italia.

The perfect stage of powdery mildew of Sugar beet in Italy » 60

632.35 *Pseudomonas phaseolicola* 635.652 (569.41)

VOLCANI Z. - Bacterial halo blight of Beans in Israel.

Il « grassume » del Fagiolo in Israele . . . . . » 58
